Profile summary

Strong academic background (95%+ in Tamil Nadu HSC) with hands-on experience in full-stack development. Skilled in JavaScript, React.js, Node.js, and MongoDB, with expertise in HTML, CSS, Git/GitHub, Socket.io, JWT, and NPM. Experienced in building dynamic, scalable web applications and managing databases. A collaborative team player, eager to leverage technical expertise in a challenging environment and continue growing professionally.

Skills

- React.js
- Node.js
- Express
- MongoDB
- SQL
- HTML
- CSS
- GIT
- Github
- Tailwind CSS
- GraphQL
- Jwt
- AWS
- TypeScript
- Javascript

Work Experience

Software Engineer – Cloudeq Software India **Aug 2022 - Nov 2023**

- Developed 5+ scalable and high-performance e-commerce modules using React and Node.js, enhancing user engagement and platform reliability.
- Designed and implemented 20+ reusable, responsive UI components with Chakra UI and Tailwind CSS, improving development efficiency by 30%.
- Implemented New Relic for performance monitoring and early issue detection, leading to a 15% decrease in downtime.

Projects

Expense Tracker **1 Months**

- Implemented secure JWT authentication and optimized Apollo Client state management for over 50 active test users
- Enhanced GraphQL server efficiency by designing custom resolvers, reducing data payload size by 30% and improving query performance
- Utilized React, Express, Node.js, GraphQL, and Tailwind CSS to deliver a scalable and responsive application interface

Product Store **1 Weeks**

- Designed a responsive shopping grid showcasing 50+ filterable products to enhance user experience and product discoverability.
- Created a comprehensive admin dashboard for streamlined product management, including additions, updates, and inventory tracking.
- Utilized React, Express, Node.js, and Chakra UI to build a scalable and maintainable full-stack e-commerce application.

Chat App **6 Weeks**

- Implemented real-time messaging across multiple chat rooms using Socket.IO, enhancing user engagement and interactivity.
- Maintained message history with MongoDB, optimizing data retrieval to achieve sub-100ms latency for seamless user experience.
- Utilized a robust tech stack including React, Express, Node.js, Daisy UI, Tailwind CSS, and Socket.IO to build a scalable, responsive chat application.

Food Recipe App **3 Weeks**

- Developed and showcased a catalog of 20+ recipe items with integrated cart functionality, excluding authentication, search, and payment features.
- Designed and implemented a responsive UI layout optimized for compatibility with over 95% of device screen sizes.
- Utilized a modern tech stack including React, Express, Node.js, Context API, and Firebase Realtime Database to enhance application performance and scalability.

Education

B.Tech/B.E. | Electronics/Telecommunication **2021**
Government College of Technology, Coimbatore
Grade - 7.37/10
